

Tom Shieves, PhD, PMP Consultant

Tom has been a technical leader, business manager, project manager, management consultant and coach. His more than 30 years experience in a broad range of product development and systems engineering disciplines include software, electronics, and mechanical systems.

He has demonstrated proven success in building project teams, product development teams, process improvement teams and systems integration teams in industries which include product development, manufacturing, and systems integration of automation systems, information technology, wireless telecommunications, oil exploration, and defense guidance systems. He has led the effort in establishing a project office and has developed and installed project management processes and methodologies including guidelines, templates, and checklists.

Tom consistently develops processes and trains leaders and teams that generate high quality, useful, custom software and hardware-based systems. His client list includes Fortune 500 corporations, he has trained over 1000 project managers internationally for organizations such as:

- 🌐 IBM
- 🌐 Nortel
- 🌐 Sabre
- 🌐 Texas Industries
- 🌐 ATI (Toronto, CA)
- 🌐 Global Loans (London)
- 🌐 Novell
- 🌐 Libbey Glass
- 🌐 Transamerica
- 🌐 Bergen Brunswig

Tom is also a frequent speaker at PMI chapter meetings across the country.
